

Management of Rosacea, Acne and Actinic Keratosis in Primary care 2019

Are you looking to extend your competencies in Dermatology?

Around 10-15% of primary care workload involved dermatology and we will be in 10 locations across the UK in 2019. The agenda has been carefully put together by our Clinical Team and chaired by our clinical lead, Dr Duncan Jenkins, our expert speakers will discuss:

Rosacea

- Overview of condition
- Patient assessment
- Treatment options and monitoring

Actinic Keratosis

- Overview of condition
- Patient assessment
- Treatment options and monitoring

Acne

- Overview of condition
- Patient assessment
- Treatment options and monitoring

Extending competencies in dermatology

- Next steps to independent prescribing
- Identifying and managing risks
- Clinical supervision
