

Alliance for Better Care

Vaccination Programme Update

We are working in partnership with our GP Federation, Alliance for Better Care, to deliver the Vaccination Programme including Covid-19 first and second jabs, Covid-19 Boosters and Flu Vaccinations.

Covid-19 first, second and booster jabs

Book online via www.nhs.uk or by calling 119

You can now book your Covid-19 Vaccination via the NHS website using the National Booking System or by calling 119. This online system is updated regularly, so if there isn't a suitable date on your first attempt, please visit again at a later date and choose a date that suits you.

Find a walk-in vaccination clinic near you

www.abcltd.org.uk/walk-in-clinics

Patients are welcome to come to one of our walk-in clinics. The online listing is updated weekly, so if there isn't a suitable date, we advise checking again at a later date.

Flu Vaccinations for eligible patients

Eligible patients should have received an invitation to book a Flu Jab appointment. We are offering eligible patients their flu vaccination at their Covid-19 booster appointment, however, this will be dependent on flu vaccine stock and patients must be at a site that is administering Flu jabs for the GP practice that you are registered with.
